Budapest, Hungary | +36 20 628 9542

muhammadibrahimshoeb@gmail.com github.com/ibrahimify linkedin.com/in/ibrahimify ibrahimify.tech

EDUCATION

Budapest University of Technology and Economics

BSc in Computer Science and Engineering

Expected Jan 2027

Budapest, Hungary

Aligarh Muslim University

Diploma in Computer Engineering

Aug 2017 – May 2020

Aligarh, India

WORK EXPERIENCE

Wizz Air

Security and Central Services Trainee

Jan 2024 – Present

Budapest, Hungary

- Built operational monitoring dashboards over centralized datasets using Power BI, SQL, and Python to support system reliability and security KPIs.
- Automated data ingestion and transformation pipelines, reducing manual reporting effort and improving consistency of operational metrics.

Evidence Collection Agent

Jan 2024 – Jan 2026

- Built and maintained structured databases tracking flight disruptions and passenger cases in compliance with EU261 regulations for legal and audit purposes.
- Contributed to team automation initiatives by supporting rule-based classification logic and verification workflows, collaborating with operations and legal teams to streamline evidence collection and reduce manual processing.

CrySyS Lab, Budapest University of Technology and Economics

AI Security Research Assistant

Sep 2025 – Present

Budapest, Hungary

- Research assistant focusing on privacy vulnerabilities in generative AI systems, including experimental evaluation of large-scale ML models in controlled environments.

PROJECTS

TeleGuard AI | *Python, scikit-learn, Docker, Telegram Bot API*

May 2025

- Built a real-time Telegram spam detection bot using TF-IDF and ensemble classification (LogReg, NB, XGBoost); trained on 50K+ labeled messages (F1: 0.93).
- Containerized with Docker and integrated CI/CD using GitHub Actions.

OpenMetroMaps (Open Source) | *Java, Git, Open Data*

Feb 2025

- Contributed features to an open-source Java project using Git-based workflows in a multi-developer environment.

Pong Game | *C++, SFML*

May 2024

- Created a 2-player classic Pong game with scorekeeping, physics, and file-based high score tracking.

ACHIEVEMENTS

- 1st Place – "Most Sustainable Idea", **EELISA Innovation Week Hackathon** (2024, Madrid).
- Awarded full Stipendium Hungaricum Scholarship (2022–2026).

LEADERSHIP AND ENGAGEMENT

HÖÖK - Hallgatói Önkormányzatok Országos Konferenciája

International Student Mentor

Jul 2023 – Present

Budapest, Hungary

- Guided 50+ international students on academic, housing, and cultural adaptation; organized onboarding events with 100+ participants.

TECHNICAL SKILLS

DevOps & Cloud: Docker, GitHub Actions, Jenkins (basic), Linux, AWS (basic), Azure (basic)

Languages: Python, Bash, Java, JavaScript, C, C++, SQL

Data & Security: Power BI, DAX, scikit-learn

Developer Tools: Git, VS Code, Jupyter
